Education

B.Tech (Computer Science) / VIT Bhopal University	CGPA − 8.83/ 2022 − 2026
10th Standard | Rajkiya Pratibha Vikas Vidyalaya, Dwarka	96.8% / 2019 − 2020
12th Standard | Rajkiya Pratibha Vikas Vidyalaya, Dwarka	93% / 2021 − 2022

Technical Skills

Languages - C++, JavaScript, Python
Frontend   - HTML, CSS, React JS, Next.js, Tailwind CSS
Backend   - Node JS, Express JS
Database   - MySQL, MongoDB
Additional - Machine Learning, Git, GitHub, VS Code, AWS
Coursework- Data Structures and Algorithms, Object-Oriented Programming System, Database Management Systems

Projects

Alzheimer Disease Detection   GitHub Repo | Python, TensorFlow, CNN

Data Utilization**:** AI models use various data types, including medical imaging, genetic information, and cognitive tests, to detect patterns associated with Alzheimer's disease.
Techniques and Processes: Machine learning methods like CNNs for image analysis and predictive modeling algorithms are used to train and validate models for accurate detection and prediction.
Challenges and Applications: Ensuring data quality, interpretability of results, and addressing ethical concerns are key challenges; however, AI tools are increasingly being developed to enhance early diagnosis and treatment.

Ticket Support System   GitHub Repo | React.js, Node.js, Express.js, MongoDB

A full-stack support ticketing system with role-based access (user, admin, super admin), real-time ticket tracking, and JWT-secured authentication. Built with Redux Toolkit and RTK Query for efficient state management and a responsive dashboard UI.

GetMeAChai   GitHub Repo | React.js, Tailwind CSS, Next.js

Developed a web application using **Next.js**, enabling creators to share content and receive support from subscribers. Implemented secure authentication, subscription management, and responsive UI for seamless user experience. Leveraged server-side rendering for performance optimization and scalability. Designed with modular components and best practices for maintainability and deployment.

Experience

MERN Full Stack Development Intern MERN Certificate	January 2025 - April 2025

Gained hands-on experience in building full-stack applications using MongoDB, Express.js, React.js, and Node.js. Developed and deployed CRUD-based web projects with responsive UI using HTML, CSS, Bootstrap, and JavaScript.

Achievements

* **NPTEL** Certificates: Cloud Computing, Marketing Analytics
* Google Coursera Certificate: Bits and Bytes of Computer Networking
* Solved over **350+ problems** on various platforms. **Leetcode   GeeksforGeeks   CodingNinjas**
* Selected for the prestigious **EY Scholarship** Program in recognition of academic excellence   2021-2026
* Several LinkedIn certificates to boost my soft skills. (Acting Decisively, Communication Foundation etc.)
* Successfully completed Advanced Microsoft Excel and PowerPoint training by EY.
* Adobe India Hackathon participation organized by **Adobe**.   Certificate
