Education

B.Tech (Computer Science) VIT Bhopal University	CGPA – 8.89 2022 – 2026
10th Standard Rajkiya Pratibha Vikas Vidyalaya, Dwarka	96.8% 2019 – 2020
12th Standard Rajkiya Pratibha Vikas Vidyalaya, Dwarka	93% 2021 – 2022

Technical Skills

Languages - C++, JavaScript, Python

Frontend - HTML, CSS, React JS, Tailwind CSS

Backend - Node JS, Express JS

Database - MySQL, MongoDB

Additional - Git, GitHub, VS Code, AWS

Coursework- Data Structures and Algorithms, Object-Oriented Programming System, Database Management Systems

Projects

Political Promise Tracker

[GitHub Repo](#) | MERN, OpenAI, REST APIs

Developed a full-stack Political Promise Tracker application using the MERN stack to monitor and analyze political commitments. Implemented secure JWT-based authentication with role-based access control for users and administrators. Designed dynamic dashboards to track the status of promises (fulfilled, ongoing, pending) with real-time updates. Built scalable RESTful APIs and optimized MongoDB queries to ensure efficient data handling and performance. Structured the project using modular architecture for maintainability and scalability.

Rately – Store Rating System

[GitHub Repo](#) | React.js, Node.js, Express.js, MongoDB

Built a role-based Store Rating System that allows users to rate and review registered stores while administrators manage users and store listings. Implemented secure authentication with encrypted password storage and protected routes. Designed an admin dashboard for monitoring ratings, managing stores, and maintaining system integrity. Developed an average rating aggregation mechanism and ensured responsive UI for seamless user experience across devices.

Scholara

[GitHub Repo](#) | React.js, Tailwind CSS,JWT

Developed Scholara, a student project submission and evaluation platform for academic institutions using MERN stack. Enabled role-based access for students, faculty, and administrators to manage project submissions and reviews efficiently. Implemented secure authentication, project upload workflows, and status tracking mechanisms. Designed a structured and scalable database schema to manage academic records effectively while ensuring smooth state management and optimized backend performance.

Experience

MERN Full Stack Development Intern [MERN Certificate](#)

January 2025 - April 2025

Gained hands-on experience in building full-stack applications using MongoDB, Express.js, React.js, and Node.js. Developed and deployed CRUD-based web projects with responsive UI using HTML, CSS, Bootstrap, and JavaScript.

Achievements

- * **NPTEL** Certificates: Cloud Computing, Marketing Analytics
- * Google Coursera Certificate: Bits and Bytes of Computer Networking
- * Solved over **350+ problems** on various platforms. [Leetcode](#) [GeeksforGeeks](#) [CodingNinjas](#)
- * Selected for the prestigious **EY Scholarship** Program in recognition of academic excellence 2021-2026
- * Several LinkedIn certificates to boost my soft skills. (Acting Decisively, Communication Foundation etc.)
- * Successfully completed Advanced Microsoft Excel and PowerPoint training by EY.
- * Adobe India Hackathon participation organized by **Adobe**. [Certificate](#)
